Mission & History

The Max Foundation is a non-profit global health organization that believes all people living with cancer deserve access to the best treatment, care, and support. We decrease premature mortality from cancer by channeling humanitarian donations of life-saving oncology products to underserved populations in countries where those products are not locally available. By partnering with the major cancer institutions and patient associations in low- and middle-income countries, we enable effective solutions for access to treatment. Founded in 1997, The Max Foundation began as a grassroots organization with several volunteers has evolved into a specialized team of more than 50 professionals. We carry out our work with team members based in Seattle at our headquarters and in many targeted low- and middle-income countries. Through the years, we have expanded our mission. The Max Foundation now has a full range of programs and services, all focused on serving people living with cancer around the world.
